Maintaining the Appearance and Integrity of Kilties that Adorn Men's and Women's Dress Shoes

These documents are being sent to your office for their acceptance and review. It was not until January the 4th of this year that out of curiosity I contacted the U.S. Patent Office to find out the status of my Patent since I had not heard anything since it was filed last year. It was then that I found out that there were missing parts of the non-provisional application.

An officer from the USPTO informed me of what was missing and that the letter had been mailed in May of 2004.

I explained to him that I had not received the document otherwise I would have taken care of it right away, he then sent me the same letter that explained the steps to follow to fix the problem. He said to follow the steps and to send the information as soon as possible since we were at risk of abandonment.

I received the letter January the 5th, and after reviewing the steps to follow I am enclosing all the information needed plus the \$65.00 fee to continue with the Patent Application process.

Can you please let me know via email the status of the patent or any other documents needed to continue with the Application.
